

How to Create Agent Links for Cloud Services Sangoma Partners Only

- If you are setup as a [Sangoma Certified Reseller](#) you can enable our Agent program for SIPStation and PBXact Cloud (CloudPBX)
- Login to the [Sangoma Portal](#)
- Click on the Customers > List Customers

- View your search for your organization and click on the View icon to edit your settings

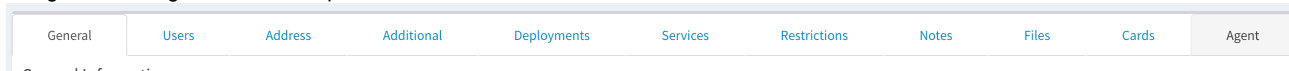

Showing 1 to 1 of 1 entries

Business Name	Country	State	City	Systems	Type	Reseller	Acct Mgr	View
e4 st	United States of America	Michigan		234	Reseller	Sangoma Corp Account*	Preston McNair	

Showing 1 to 1 of 1 entries

Previo

- Navigate to the Agent tab at the top

- Here you will see the following screen

Agent Code:	<input type="text" value="https://cloud.pbxact.com/ss_cloudpbx/?agent= myagent"/> <input "="" type="text" value="https://sipstation.com/ss_index/?agent="/>
SIPStation Agent URL:	https://www.sipstation.com/ss_index/?agent=myagent
PBXact UCC Agent URL:	https://cloud.pbxact.com/ss_cloudpbx/?agent=myagent
Display Name:	<input type="text" value="My Agent"/>
Custom domain for UCC:	<input type="text"/>
Custom domain for SIPstation:	<input type="text"/>
Image / Logo:	<input type="text" value="(170px X 45px)"/> <input type="button" value="Browse"/>

- Agent Code is where you define the agent name you want used in your URL. In our example of myagent the URL would be created with myagent in them as shown in the URLs below
- SIPStation Agent URL: The URL you would use to send customers to for signing up for SIPStation for you to get a commission
- PBXact UCC Agent URL: The URL you would use to send customers to for signing up for PBXact Cloud for you to get a commission
- Display Name: Name shown on the webpage for the URLs above
- Image/Logo: Logo that is shown in the URL pages above. **THIS IS IMPORTANT**, if no image is uploaded/set, this *may* create a broken image file on the customers' landing page
