

NSG Software Update

NSG Software Release

The below package is to be used on your own Linux platform to update your NSG Software version to the current release.

Updating to the current NSG release requires a complete re-install of the NSG Software. Precaution should be taken to backup all user configuration if upgrading from a previous version.

nsg-5.2.0-121.x86_64.tar.gz
NSG SS7 Update package

| version 5.2.0-121 | Added: 15/12/2016 | Changelog
